

Gary Jerome Weems Records Inventory

A category guide to the source material reviewed for the documentary and legal research.

JD

A FAMILY. A SYSTEM. A FIGHT FOR THE TRUTH.

How to Use This Guide

This inventory describes the types of records held in the private production and case archive. It does not reproduce restricted pages. Public releases should be redacted, contextualized, and reviewed before publication.

CATEGORY	EXAMPLES IN SOURCE COLLECTION	PUBLIC STATUS
Medical examiner	Correspondence, autopsy report, death certificate, intake and burial-related records	Restricted / summarized
Police and first response	Incident reports, police reports, EMT documentation, officer records	Redacted release only
Witness material	Typed witness statements and proposed interview or interrogatory questions	Contextual review
Court and legal	Federal and state filings, decisions, attorney correspondence, claim materials	Selected public filings
Agency correspondence	Medical examiner, law-enforcement, FBI, and records-request correspondence	Review before release
News and public history	Historical newspaper coverage and related public reporting	Citation or licensed excerpt
Family research	Case thesis, witness list, questions, emails, notes, and investigative chronology	Private / selected summary

SOURCE PDFS REVIEWED

- Discovery.pdf - 16-page working research and discovery outline.
- staples_scan_1674138443882.pdf - 52-page mixed record scan containing first-response, police, medical examiner, news, and legal materials.
- staples_scan_1674138522685.pdf - 61-page mixed legal and correspondence scan.
- Weems, Gary 1993-3665.pdf - 85-page compiled record set containing sensitive and duplicated material.

PUBLICATION RULES

- Do not publish death-scene or autopsy photographs on the open archive.
- Remove addresses, identification cards, signatures, birth dates, account numbers, private emails, and phone numbers.
- Label family theories and allegations as disputed claims, not established facts.
- Keep an unchanged private original and record every redaction made to a public copy.
- Obtain legal review before releasing sensitive court, medical, or witness material.
