Unanswered Questions and Research Priorities

A public summary of the questions guiding the documentary's continuing investigation.

JD

A FAMILY. A SYSTEM. A FIGHT FOR THE TRUTH.

Purpose

The source archive contains proposed interrogatories, witness questions, and research notes. This public edition groups the central issues without reproducing private contact details or sensitive imagery.

IDENTIFICATION AND FAMILY NOTIFICATION

- How was Gary identified, and which records document that identification?
- What efforts were made to locate and notify his wife, children, or other relatives?
- Who authorized burial, and where is the complete authorization record?

SCENE AND FIRST RESPONSE

- What is the verified timeline from the initial report through police and EMT arrival?
- How did responders describe Gary's physical condition and possible signs of trauma?
- What photographs, notes, recordings, or property logs were created and preserved?

MEDICAL EXAMINER RECORDS

- How were the reported cause and manner of death reached?
- Which findings came from direct examination and which relied on information provided by others?
- Why do the family and filmmakers identify inconsistencies in numbering, descriptions, or documentation?

BELONGINGS AND CHAIN OF CUSTODY

- What property was recovered, who held it, and when was it returned?
- Do property records help explain how Gary was identified or why family notification was delayed?

WITNESS ACCOUNTS

- Which witnesses were interviewed, when, and by whom?
- Were statements recorded, signed, or preserved in their original form?
- Where accounts conflict, what independent evidence can resolve the difference?

REMAINS AND INDEPENDENT REVIEW

- What legal and logistical steps are required for exhumation?
- Can DNA confirm identity and can modern forensic methods answer unresolved questions?
- How can the family secure a dignified reburial after independent review?

EDITORIAL STANDARD

These are research questions, not accusations or findings. The documentary seeks records, testimony, expert analysis, and transparent review before drawing conclusions.
