Hello Sean

Don't worry about the spelling of my name most people spell it with a U instead of an E.

So I received a copy of the autopsy report in the report itself there is a lot of discrepancy that I can clearly see myself. They didn't send the photograph and I was told I could not view it. I was told that someone from the DA's office can. I'm not sure if it would be you or your supervisor who would have to request the photo's but I would like to be present when this happens. I know the photo shows my fathers face all swollen in the autopsy report it

[Redacted]
on the 29th please let me know. Again I am coming from NY. I also talked to my aunt who lives in Mass shes my dads other sister. I talked with her today she says she has a boxes of evidence I can pickup next week as well.

Sincerely

Hi Jestina – I apologize. I've been away from the Lowell office doing interviews. But I wanted to let you know that I've had some luck gathering records. I know you already have the autopsy, but my copy has a copy of the photo of your father's face. I also think I have all the police reports and follow-up reports. I've asked for permission to give you copies of everything. I don't think that will be a problem. I'll write you

[REDACTED]

I'll let you know when I have more information. Ideally, once I can get everything to you, we can talk about next steps. The photo shows no injuries to your father – no bruising or cuts or scrapes – and the autopsy report, in addition to saying there was no trauma, gives a cause of death of opiate overdose. As I've said before, there's no way for me to imagine how frustrating this process has been for you. I look forward to talking more once we have all the documentation. I hope you have a nice weekend, and I'll pass on any new information as soon as I get it. Thanks. - Sean

Hello Sean

Yes please set me a copy of the picture because I have three witness that say otherwise. Also why on my [REDACTED] there but he was still buried. You don't think its funny that your identifying a photo of a man you never met? you don't know who your looking at right now. Why do I need permission to identify my own father? My aunt also found all her papers so please send me yours and I will continue looking into everything. I also find it strange that the history on the autopsy report didn't match the place of death on the death certificate. The story changed again once in court. And because I have a degree in photography I would like to just see the original Polaroid that was take in 93. The man didn't even have enough drugs in his system 1 gram of Benzoylcegonine , and the Morphine could have been given to him in the ambulance. Which brings up another question. Where did the ambulance take my father? My aunt has two bills from them. But if we go back to his death certificate why is the [REDACTED]

right this is frustrating because these officers never thought that today's technology would help people like me get justice for people like my father. First of all there shouldn't have been a problem with me ever getting the photo if the case wasn't open. I can read well enough and the internet is the key to the world.

Thank you for your time

Another thing I just realized now as of two days ago you had not information and I'm sure if you had this [REDACTED] call me today. Now both yesterday and today you were out of the office doing interviews. What I find a little funny [REDACTED]

Can I speak with

Mon, Jul 21, 2014 at 6:25 PM

The following DA's are individuals who are running for election this year. I get it with an election the last thing any of these people want to do is convict officers of the law. I would like to talk to anyone of these individuals; Martha Coakley, Steve Grossman, Scott Lively, Maura Healey, Warren Tolman or Danny Factor.

I am also taking my story and evidence to the press; Boston Globe, Boston Herald, Lowell Sun, WBZ, WCVB, WHDH.

Let's let America view the evidence in black and white and decided.

stated that you had the full autopsy report which the photo is apart if. So did I get the full report obviously not, again I've been lied to.

Thank you Sean for your help I'm not taking any of this out on you I understand now that you a just the messenger boy meaning your telling me exactly what your boss wants me to know. Problem is I know more then people want me to know.

Sincerely and happy to be

return your call ASAP.

Thank you for your business!

Valarie

No offense Mr.Griffith but your right. As a court supervisor you are only a messenger and I feel its time for me to talk to your supervisor or the person who handles homicides. I don't need to waste anymore time it's been 20 years. Though that doesn't mean anything to anyone in Lowell it matters to me and my family.

Please let me know if I can receive the documents this week. If not I will be back in Mass by the first and I can talk to people face to face and we'll see what results I can get.

According to the Massachusetts Public Records Law I need a written stated exemption explain the reason I can't receive the picture. I read all 60 pages so I know my rights in Mass pertaining to public records.

Do you have a copy of the "minutes"?

I also have the right to get all requested reports in a timely manner. The manual says I have the right to inspect, copy or have copies of records provided.

I would also like to mention the Federal Freedom of Information Act of 1966.

You know the ME talking about how rude I may have been. As far as I'm concerned I lost my father and I can't get a straight story even from a black and white police or autopsy report. So if I am rude I think I have a right to be. Non of the record match and my father was buried by the department and it took 6 weeks for my family to find out. No one is doing me a favor your supposed to be doing your job. If this isn't your job the case need to be passed on to the person whose job it is to get me the truth.

Thank you Mr. Griffith for you time. I understand you have to work with these people on a daily bases and these case is probably very uncomfortable for you and your colleges. To be honest it should be because this case makes a lot of department look bad not just the police that killed my father but everyone involved. I will put conspiracy charges on everyone who helped continue to cover up his murder. One thing I know firsthand when dealing with the Feds you don't need much for a conspiracy charge. Sense the documents speak for themselves and the three witness I have covered important grounds of conspiracy.

I'll keep some faith that you will send the documents but I won't hold my breath. Just let your supervisor or chief of homicide know I will be at someones department looking for answers.

Have a great day and week

Sincerely and proud to be

Jestina Weems

Hi Justina – First, I'm happy to help but will not have you questioning my honesty. I called the ME and was

[REDACTED]
The issue is that – and I know this is unfair – we need permission to release documents from our chief of homicide. Even following a trial, it's a process to release certain evidence to a victim's family. I've found it frustrating but haven't found a way around it. As soon as I here back, I'll send everything your way, and we can talk about inconsistencies in the reports.

As for the photograph. You're right. I can't identify your father. I can only say the photograph in the autopsy report doesn't have facial injuries.

Just so you know, I'm the Regional District Court Supervisor. We don't do homicides in district court. So, in no way is the help I'm providing you part of my job. But I know how hard the system is to navigate and how difficult this process has been for you, so I'm happy to help. But if I'm going to continue to help, Jestina, I can't have you calling the ME'S and DA's offices and being rude to the people who answer the

[REDACTED]
that you've been rude and demanding. I'll do everything I can to help. But no matter how frustrating this process is, please try not to shoot the messenger. I'll reach out as soon as I know something. Please hang in there. Thanks. - Sean

Hello Sean

I'm not going to play the he said she said BS, I recorded all me calls to the OME and got hung up on 9 times for asking questions. So well let the NAACP and the next judge determine how rude I was. As far as I'm concerned you are all working together and no body wants 7 officers accused of another attack on a homeless black person. It seems like police brutality is a big issue.

So you received the documents from chief of homicide, if my the cops say he died of a over dose why is his case with homicide?

Another thing this picture was never evidence it was used to identify my father. If the picture is of a dark skinned black man like the autopsy report states its not him. My father was light skinned even lighter in November he had a high top and the report says six feet my father was 6'2 and didn't weigh 190. You keep talking about the picture with the autopsy report I'm asking to see the polaroid.

Following up

Thu, Jul 31, 2014 at 6:50 PM

Hello Mr.Griffith

I believe the last time we spoke you said you would have an answer from your supervisor about sending me the [REDACTED]
two days. I am still patiently waiting.

I am in NH now and would like to pick them up tomorrow but no later then Monday. If you would please let me know which day would work out best for you.

At this time I have an overwhelming amount of evidence from my aunt. So what I would like to do is just read everything myself and then I will contact you with a date in which we can meet and talk about everything and what I feel should be the next step in finding justice for my father, before I leave on the 11th.

I understand you want to help and the best way you can do this is by sending over what it is your have. I've already been to the two location my father could have possible died. The park the officer first chased him out of is right across the street from the first location in which the police say they recovered his body. Now the sheriffs office I believe was just built in 2011 but in 1993 it was the unemployment office which means these reports still don't make sense.

When all this is said and done. I just want to know what really happened to my father. So I can tell my son the truth and not everyone else's opinion of the situation.

If this was a simple overdose all the paper should read the same. We should have been contacted when it happened so we had the right to bury him with our family because yes we do own family plots but just like they thought my father had nothing I guess they just assumed the same about the whole family.

I will be waiting for your response. I don't get a signal at my mothers but I will stay close to the computer.

Sincerely and proud to be

Jestina Weems

You're welcome to come to the Lowell office. I won't have much time, and my supervisor won't be in Lowell, but if you just want to go over what docs you have so far, I'm free 3:30 to 4pm.

Hi Jestina - I can only confirm they will have have the full autopsy by 9am. I reached out regarding the photo after business hours and haven't heard back on that yet. I will let you know when I hear back but I'd be surprised if it was ready for 9am.

Hi Jestina - I got your voicemail on my office line. I hope that my sincere desire to help you hasn't been confused for a fear you'll go to the press. You have a right to talk to whoever you like. I'm doing the best I can to collect information for you, and I confess to being frustrated by some unexpected bureaucratic rules. I'm sure I don't know how much more frustrating this has been for you. But calling me and saying that if you can't meet with me this afternoon (with not even a day's notice) or you will go to the press suggests a misunderstanding. You can go to the press this morning if you want to. I'm available to talk at

hope that I can help. I want to help you find some answers, but there's only so much I can do. Please call

If they're okay with it, then that's fine. The ME told me that only they – the producer of the photo – could
release it, and only then with the written permission of our homicide chief. If they're now saying I can
release it, that's fine. That makes it easier.
